

ICTS Group – Parts Analyst, Deputy to Parts Manager

Job Description:

- Analyse parts sales, stock, and turnover data to identify trends and areas for improvement.
- Monitor stock rotation and propose assortment and inventory optimizations.
- Conduct market research on parts prices, availability, and supplier competitiveness.
- Prepare analytical reports and dashboards using Excel or ERP systems.
- Identify and contact potential new suppliers and prepare evaluation summaries.
- Support purchasing and stocking strategies and their implementation.
- Collaborate with workshop and warehouse teams to ensure accurate data and efficient processes.
- Provide temporary support or substitution for Parts and Warehouse Coordinators when needed (including occasional assistance in the Netherlands).

Your profile:

- Strong analytical mindset with advanced Excel skills (pivot tables, formulas, data analysis).
- Experience in reporting, data analysis, or inventory management (ERP knowledge is a plus).
- Strong interest or background in truck and trailer parts or automotive market (experience in this field is a strong advantage).
- Good understanding of warehouse operations and spare parts logistics.
- Excellent communication and teamwork skills.
- Good command of English and/or Dutch (other languages are a plus).
- Organized, detail-oriented, and able to work independently.

What do we offer you?

- A competitive salary package based on experience and skills.
- Direct cooperation with the Parts Manager and involvement in strategic projects.
- Clear onboarding process and ongoing training opportunities.
- Professional, international work environment with room for growth and self development.
- Full-time (38h/week) role based in **Zeebrugge, Ghent, or Antwerp, Belgium.**
